Less razors and blades tossed and fewer chemicals down the drain to mention a couple. Others are in the book. Saving the Earth - One Beard at a Time, takes a look at how being mindful in one daily activity can save the Earth. Imagine, if we were all mindful in a few of our daily activities, how much more that would save the earth. What daily activity will be the one you re mindful in, which you can use to save the earth? It may be much more practical for you to modify your shaving habits than to install a green roof, buy an Electric Vehicle, or purchase 100 green electricity. It s also good to do those things, but you may not be in a position where you can do them. This you can probably do.
