# METABOLISM OF INNOVATIVE PET TRACERS

VDM Verlag. Paperback. Condition: New. 64 pages. Dimensions: 8.7in. x 5.9in. x 0.1in. PET (positron emission tomography)-tracers are molecules that are combined with radioactive isotopes. They play an important role in medicine imaging techniques by producing a three-dimensional image or map of functional processes in the body. These radiopharmaca, which are accumulated in certain areas of the body, give information about the metabolism of cells. Out of wide range of radiopharmaca, three tracers which can be used in psychiatry to elucidate...
