By -

Springer. Paperback. Condition: New. 182 pages. Dimensions: 11.1in. x 8.2in. x 0.7in. As one of the eighteen field-specific reports comprising the comprehensive scope of the strategic general report of the Chinese Academy of Sciences, this sub-report addresses long-range planning for developing science and technology in the field of marine science. They each craft a roadmap for their sphere of development to 2050. In their entirety, the general and sub-group reports analyze the evolution and laws governing the development of science and technology, describe the decisive impact of science and technology on the modernization process, predict that the world is on the eve of an impending S and T revolution, and call for China to be fully prepared for this new round of S and T advancement. Based on the detailed study of the demands on S and T innovation in China's modernization, the reports draw a framework for eight basic and strategic systems of socio-economic development with the support of science and technology, work out China's S and T roadmaps for the relevant eight basic and strategic systems in line with China's reality, further detail S and T initiatives of strategic importance to China's modernization, and provide S and T decision-makers with...
