An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer publishes this book.

If there are 8 million stories in the naked city then Harlem has a million. Most of them can be told by one of its greatest inhabitants - black men. Fame greed love and a sense of purpose are the common denominator. But with new real estate, economic resurgence and a greater divide between the haves and have nots there voices have been lost. Listen to a small time drug dealer as he makes a name in the crack game. He will soon learn that it s not what not what you do that matters, but what you say that does. Then there s the rehabilitated writer who returns back to Harlem a place where his past and present collide and only he can tell the difference. Unbeknownst to him he is about to write his greatest work - his life. Then there s the jazz connoisseur who watches with apprehension as the young rapper moves into his building. This sets into motion a chain of events, which proves change if even not welcomed is inevitable. These are some of the voices of men who scream because they can t be heard.
